Effluent Treatment Plant Manufacturer | 9812241001: An Effluent Treatment Plant (ETP) is a facility designed to treat wastewater or effluent generated from industrial, commercial, or domestic activities to remove pollutants and contaminants. The treated effluent can then be safely discharged into the environment or reused. ETPs are crucial in ensuring that water pollution is minimized and that industries comply with environmental regulations. KWTPL is the leading manufacturer of water & manufacturer of treatment plant and waste management.
