Price: **641,016.00 ?**

Montessori Education system: Montessori education in India has gained significant popularity over the years, offering a unique approach to early childhood learning that emphasizes independence, self-directed activity, and hands-on learning. Here's an overview of Montessori education in India:

Montessori education in India traces its roots back to the early 20th century when Maria Montessori's pioneering educational methods began to gain recognition worldwide. However, it wasn't until later years that Montessori schools started to proliferate across India. Today, the Montessori method is embraced by parents and educators alike for its holistic approach to child development.
