Address: **AARAV House, MIDC A-152, 153, Rd Number 25, Wagle Industrial Estate, Thane**

Price: **5,000.00 ?**

Perfume Ingredients: Perfume ingredients combine natural and synthetic elements to create unique scents. Common components include essential oils (like lavender or rose), aroma chemicals (such as vanillin or musk), and fixatives (like ambergris or synthetic substitutes). These ingredients blend to form top, middle, and base notes, crafting the fragrance's overall profile. for more:- <https://aarav.co/ingredients>
