31

Address: D-215, Devsha Business Park, Sector 63, Noida, Sector 63 D-Block, Noida

Price: Check with seller

FSSAI License for Importers: FSSAI license is mandatory for importers bringing food products into India. The process involves submitting required documents such as product descriptions, business information, and compliance with food safety standards to the Food Safety and Standards Authority of India. Once approved, the license ensures that your imported goods meet regulatory requirements. This not only builds consumer confidence but also allows your business to legally sell food products across the Indian market.
