Address: **Building No. 11, Block A, 3rd Floor, Main Najafgarh Road, Uttam Nagar, New D**

Price: **Check with seller**

Company Registration Platform in India: The Company Registration Platform makes it easy to form a company in India. These internet-based platforms offer entrepreneurs a practical means of registering their businesses. They provide comprehensive instructions on how to obtain a Director Identification Number (DIN) and Digital Signature Certificate (DSC) and how to submit the required documentation to the Ministry of Corporate Affairs (MCA) in order to meet Indian laws. Users can draft legal documents, form a corporation (LLP, Private, or Public), and reserve a name. A few of websites also provide additional services such post-registration compliance, legal assistance, and tax registration. This simplifies a difficult process that was previously time-consuming and difficult for entrepreneurs and small company owners.
