Address: **312, G Block, Sector 63, Noida, Uttar Pradesh 201301, Select City, New Delhi**

Price: **Free**

Solar Street Light: A solar street light is an energy-efficient outdoor lighting solution powered by solar energy. It typically includes a solar panel, battery, LED light, and a charge controller. During the day, the solar panel absorbs sunlight to charge the battery, which powers the LED light at night. Solar street lights are eco-friendly, require minimal maintenance, and are ideal for streets, parks, and remote areas without access to the grid.
