Enshiner Dark Spot Correcting Cream 15g Skin Brightening Cream for Men & Women: The lightweight formulation of Enshiner Cream contains powerful actives that even out the skin tone by fading discoloration, brown, and dark spots. Advanced formula goes to work at the core of hyperpigmentation to lighten stubborn spots triggered by sun damage, aging, and other environmental factors. It prevents excessive melanin production to avoid new dark spots from emerging, and the soothing and skin-repairing ingredients included work in soothing irritation naturally while aiding in skin repair. Applied regularly, this cream refines skin texture-smoothes it and makes it more supple-and makes your skin brighter, clearer, and more radiant. Lightweight in texture, it is apt for all skin types. It absorbs quickly and soothingly without any greasiness, making it just perfect to be worn day to day either alone or under makeup.
